---

## SUMMARY

---

Front-End Developer with almost 2 years of experience in React, Next JS, HTML/CSS, TypeScript and Java. Proven ability to develop and debug complex web applications while upholding user experience standards to leverage expertise in creating high-performance web interfaces.

---

## EXPERIENCE

---

### Front-End Developer

#### Opalina Technologies Private Limited

August 2021 - Present, Noida, India

- Collaborated with other Front-end Developers of the InCars at Opalina developer team and function closely collectively with Back-end developers and Solution Architects of the project.
  - Participated in an agile, collaborative environment across software architecture, understanding both front-end and back-end processes, while specializing in the front-end.
  - Contributed closely with visual designers to deliver wireframes from conception to implementation, and Back-end developers to ensure tested and production-ready UI code.
  - Wrote code for user interfaces, including interactions, responsive layouts, and styling. Utilized and contributed to the W3DS (Design Standards) to produce optimum user experience.
  - Experienced in TypeScript, familiar with the latest syntax (min. ES6), with a proficient understanding of React and Node.js. Practiced in UI development technologies such as HTML, CSS, Redux Toolkit, and API usage.
-
